

For a simple decorating

- The design of the Type C decorating machine is based on the standard size of automotive castings (cylinder head, manifold, turbine, etc.).
- Easy to operate with its display of adjustable settings (hammering time, vibration frequency, blowing-off and number of sequences).

Number of casts to be processed	Castings weight	Rotation 0 to 360°	Castings size	Machine dimension L x l x H
1	< 50 kg	no	300 x 450 x 750 mm	2.8 x 2.2 x 1.8 m
