

## DSA C

### FOR A SIMPLE DECORING

- The design of the Type C decorating machine is based on the standard size of automotive castings (cylinder head, manifold, turbine, etc.).
- Easy to operate with its display of adjustable settings (hammering time, vibration frequency,

| Number of casts to be processed | Castings weight | Rotation 0 to 360° | Castings size      | Machine dimension L x l x H |
|---------------------------------|-----------------|--------------------|--------------------|-----------------------------|
| 1                               | < 50 kg         | no                 | 300 x 450 x 750 mm | 2.8 x 2.2 x 1.8 m           |
