

Casting weight : 650 Kg

«Engine block»
robotic cell with
a payload of
1.4 T max.

Grinding station with
diamond coated wheel

Rotating decorating station
with hammering* (0 to 180°)

* Hammer cartridge

Casting	Weight	Cell dimensions L x w x H	Alloy	Cycle time
Engin block 3-6 cylinders in line	From 100 to 650 Kg	17,5 x 6,5 x 4,5 m	SG cast-iron	120 s*

* In fonction of the model and types
